

COOKIE POLICY

What are cookies

Cookies are small text files that websites visited by users send to their device (computer, tablet, or smartphone), where they are stored and then transmitted back to the same websites upon subsequent visits. Cookies allow the website to function properly and improve the user's browsing experience.

The website **CASSINERIO.IT** uses exclusively **technical cookies** and **third-party cookies related to external services**, and does not make use of profiling cookies.

This Cookie Policy describes the types of cookies used, the purposes of their use, and how users can manage them.

Types of cookies used

Technical cookies (necessary)

Technical cookies are essential for the proper functioning of the website and allow, for example:

navigation between pages;

correct display of content;

management of browsing preferences (such as language selection).

These cookies **do not require the user's consent** and are automatically deleted when the browser is closed or after a short period of time.

Profiling cookies

Profiling cookies are used to track user navigation and create user profiles in order to send personalised advertising messages.

CASSINERIO.IT does NOT use profiling cookies, either its own or third-party cookies.

Managing and disabling cookies

Users can decide whether to accept or disable cookies by changing the settings of their web browser.

Disabling technical cookies may affect the proper functioning of the website.

Below are links to instructions for managing cookies in the main web browsers:

Google Chrome

Further information

By continuing to browse this website, users agree to the use of technical cookies and third-party services described in this Cookie Policy.

For further information, users may contact the Data Controller through the **Contact** page of the website.
